Introduction of Tables

Concept of Tax Year

Effective from 1st April, 2026

Replacement of Forms

Changes in Returns/Issue of Certificates

Changes in the Filing System

Simplified Rate Structure

The Income Tax Act, 2025 simplifies TDS and TCS rates.

Now, these rates are grouped into fewer, easy-to-use slabs, making tax work smoother for everyone.

Earlier, taxpayers had to deal with many different rates, which caused confusion and errors.

Three Big Benefits

- **Fewer, Simpler Rates**

- Instead of dozens of different rates, most non-salary TDS now uses just **1%, 2%, 5% or 10%**
- TCS rates are also clearly defined.
- Removal of Deduction of Higher Rates in case of Non-Filers

- **Fewer Mistakes**

- Simple rates mean **less confusion** and fewer calculation errors when filing taxes.

- **Easy Automation**

- Accounting software and ERP systems can **automatically handle** TDS and TCS without manual checks.

Section 392: Deals with Salary Related Provisions

Sections replaced with Tables

Business & Professional Payments

- Commission and brokerage
- Work or service contracts
- Professional or technical fees
- Directors' remuneration
- Business perks

Property & Asset Payments

- Rent (for equipment, property, or land)
- Sale or transfer of property
- Royalty and license fees

Financial Instruments

- Interest on securities or deposits
- Dividend payments
- Income from mutual funds, REITs, InvITs

Special Categories

- Insurance payouts
- High-value goods purchases

E-commerce transactions

- Virtual digital assets

All these payments now fall under one section with **clear thresholds, rates, and conditions**, making TDS simpler and easier to follow for residents.

Section 393: Deals with Other than Salary Related Provisions

What Changed

- Old rules under **Section 192 (salary)** and **Section 192A (EPF withdrawals)** are now merged into **one section: 392**.
- Same calculation methods continue, but everything is now in one place for clarity.

Core Coverage

- Salary and allowances
- Value of perks (like housing, car, etc.)
- Employer-paid taxes on perks
- Retirement benefits and gratuity

Special Provisions

- Employer can choose to pay tax on certain perks directly
- Deferred tax option for start-up ESOPs (employees don't need to pay tax immediately)
- Tax rules for Provident Fund withdrawals
- Tax rules for superannuation fund payments

Why It Matters

- Easier for employers to manage tax on salaries and perks
- Clear rules for modern benefits like ESOPs
- Employees get flexibility when dealing with retirement and equity compensation

 The TRACES portal has been revamped and there's **one important change** every payee and payer must know.

FOR PAYEES

- The lower deduction certificate received by the payee is to **be utilized** for generating appropriate **child certificate(s)** through the TRACES portal (www.tdscpc.gov.in).

Additional Changes

FORM IDENTITY	FORM 15CA.	FORM 145.
Classification of Remittance	Relied primarily on broad RBI Purpose Codes, which often allowed for vague categorisation.	Introduces a mandatory drop-down list of 65 specific categories (e.g., Software Licenses, Cloud Charges, Crypto Winnings) to prevent misclassification.
Non-Resident (Remittee) ID	Often filed with minimal or generic identification data.	Mandatory fields for Foreign Tax Identification Number (TIN), country code with contact number, and email ID.
Banking Integration	AD Bank details were part of the general remittance section.	Includes a dedicated section for the Authorized Dealer (AD) Bank, including their ITDREIN (Reporting Entity ID Number) for tighter tax-bank integration.
Reporting Purpose	Primarily a self-declaration tool for remitters.	A core compliance measure for the IT Department to track potentially taxable overseas payments via structured data capture.

CHANGES RELATED TO TDS DEFAULTS

The Income-tax Act, 2025 reduces harsh punishments for TDS/TCS mistakes, focusing more on correction than prosecution.

In-Kind Payments

- No Imprisonment if TDS was not deducted on payments made only in kind (non-cash).

Digital Transactions (Sec. 476)

- Relief for online gaming winnings and Virtual Digital Assets given fully in kind.
- Protects taxpayers who don't have cash to pay tax immediately.

Small Defaults (< ₹10 Lakh)

- Only fines apply, no imprisonment.

Large Defaults (> ₹10 Lakh)

- Imprisonment term reduced: now simple imprisonment, max 2 years (earlier up to 7 years).

These reforms make the system more **business-friendly and fair**, ensuring minor or non-cash defaults don't lead to severe punishment.

GIST OF SOME IMPORTANT FAQ ON TRANSITION

Default	Quantum
Fundamental rule for determining which Act governs TDS obligations during the transition	If the earlier event occurs on or before 31st March, 2026, the ITA, 1961 will be applicable. The event occurs on or after 1st April, 2026, the provisions of the ITA, 2025 shall be applicable. Example: Advance payment made in March, 2026. However, it is credited in books in April, 2026. In this situation, provisions of the Income-tax Act, 1961 will be applicable and TDS must be deducted in March, 2026.
If a Deductor erroneously deducts TDS quoting the old Act section number for a payment made after 01.04.2026	Although the substantive provisions—such as the applicable rate and threshold—remain unchanged, citing the old section number (for example, Section 194C instead of Section 393(1) [Table: Sl. No. 6(i)]) may lead to processing errors at the time of filing the TDS return. In such cases, the deductor may be required to submit a correction statement to rectify the section reference.
